

LEGISLATION A THING OF PAST

House Decides To Accept The Aldrich Commission Plan For Financial Laws.

PLAN IS APPROVED BY THE SENATE

Will Be Composed Of Nine Senators And Nine Members Of The House--Will Report At Next Session Of Congress.

[BY ASSOCIATED PRESS.] Washington, D. C., May 22.—The house committee today voted to recommend the passage of the Aldrich joint resolution creating a currency commission which passed the senate yesterday.

Nine Each The appointment of a currency commission, to be composed of nine senators and nine members of the house, was provided for in a bill which Senator Aldrich introduced in the senate Thursday. If this is passed by congress it will comprise all the financial legislation that will be enacted at the present session.

At a Conference This was decided upon Wednesday by the conferees on the Aldrich and Vreeland currency bills at the final conference which demonstrated the final position that there is no hope of getting an agreement between the senate and house on an emergency measure, undoubtedly this decision means that the leaders in congress are determined upon final adjournment of congress Saturday.

Much Attention No question before congress at the present session has received such earnest attention as that of passing a bill which would provide against financial crises of the character experienced last fall. Efforts to legislate, however, were complicated from the start with demands of individuals who desired to bring about a general revision of the laws to regulate banking and the whole currency system of the government. These demands were made in both branches of congress and the bills reported in each house in consequence were more or less compromise measures.

No Middle Ground The conferees on the part of the senate and house failed to get down

FATHER OF FAMILY OF TWENTY-ONE IS DEAD

Green Day Man, Who Holds the Record, Passes Away Last Night. [BY ASSOCIATED PRESS.] Green Day, Wis., May 22.—Leonard Green Day, the father of twenty-one children, died last night of bright disease, aged 68. All of the twenty-one children were born of the same mother and eighteen of them are living. Mrs. Leonard is alive and in robust health.

RESUME DIGGING ON THE GUNNESS FARM

After Ten Days of Enforced Illness Sheriff Deys Hunt for More Bodily on Woman's Farm. [BY ASSOCIATED PRESS.] Laporte, Ind., May 22.—After ten days' delay in digging on the Guinness farm in search of more bodies work was resumed today. The grand jury this afternoon returned seven indictments against Ray Launspere, one each for the murder of Mrs. Julia Guinness, Phillip Guinness, Lolla Harrison, and Phillip Harrison, by destroying the Guinness home, one for arson, one for the murder of Andrew Helgelein, and one for the murder of Helgelein's wife, Mrs. Guinness in the murder of Helgelein.

MAY BE INDICTED FOR JEALOUS ACTS

Information May be Lodged With Federal Jury Charging Violation of Postal Regulations. [SPECIAL TO THE GAZETTE.] Manitowish, Wis., May 22.—A report from Manitowish says that information will be lodged with the federal grand jury charging a Manitowish woman with violation of the postal regulations and indictments are probable. Jealousy over a married man is said to have prompted the writing of the alleged letters which are in possession of the postoffice inspectors who have been here to investigate the case. Names are withheld.

LUSITANIA BREAKS PREVIOUS RECORDS

For Average Speed and for the Shortest Trip Over a Long Course. [BY ASSOCIATED PRESS.] New York, May 22.—The transatlantic records for average speed and for the shortest trip over a long course was broken by the Cunard liner Lusitania, which arrived here today. Her time was four days, 20 hours, 12 minutes, which beats the best previous time made by the Mauretania by 3 hours and 25 minutes.

CONFEDERATE SCOUT IS SERIOUSLY ILL

Colonel Mosby, of Mosby Rangers is in Washington Hospital Now.

[SPECIAL TO THE GAZETTE.] Washington, D. C., May 22.—Colonel John S. Mosby, the Confederate scout and colonel of cavalry, has been ill for some time and is now in the hospital of the Garfield hospital in this city. He is in his seventy-fifth year, but he is possessed of a rugged constitution and his physicians expect him to pull through his present illness without serious complications set in.

Colonel Mosby is one of the most prominent of the surviving leaders of the Confederate army, whose ranks are being rapidly thinned by death. He gained fame as the commander and leader of a force of partisan cavalry known as "Mosby's Rangers," who were as picturesque and brave as cavaliers and as fighters as ever went to war. No body of Confederate soldiers were feared as were Mosby's men, and the colonel was their genius.

A native of Virginia, Colonel Mosby was one of the first to enlist in the cause of the confederacy, and the part he played in the battle of Manassas made the Union commanders, who had never turned his attention to the art of war, the raid on the rear of McClellan's army on the Chancellorsville was as bold a bit of strategy as may be read in the history of warfare. His most brilliant feat was the capture of General Sigel's headquarters at that Union officer's headquarters. Secretly he had been in the capture of General Sherman's entire supply train, which he accomplished by a raid into Union lines.

After the war Colonel Mosby opened a law office in Warrenton, Va. He and General Grant became warm personal friends, and this affection lasted in Grant until death. Colonel Mosby supported the great soldier for the presidency, because he never had much faith in Greeley's democracy, and because he was convinced that with Grant in the president's chair the unity between the divided sections would be held.

From 1878 to 1885 Colonel Mosby was the American consul at Hong Kong. On his return to the United States he established himself in the practice of law at San Francisco. During the past few years he has acted as assistant attorney of the Department of Justice and has made his home in this city.

LEAGUE BALL HURTS COLLEGE ATHLETICS

University Feels Effects of Madison Being in State League Ball Games.

[SPECIAL TO THE GAZETTE.] Madison, Wis., May 22.—League baseball has been the financial loss of the university team. Since the people of the university have had the opportunity to see games of real baseball they have patronized the university exhibitions very little and the result seems inevitable that the varsity who will be even a greater financial loss than over before, and it never has paid expenses. College baseball, as seen here, is of an inferior quality. Beloit college used to put up vastly better games than the university nine. However, people, hungry for the national game, attended varsity games in goodly numbers until the Madison team of the state league was established, and now not a corporal's guard of fans is to be seen at Camp Randall. Yesterday the university nine was beaten by Illinois, 2 to 1, mainly through errors of Wisconsin fielders to bat.

STATE MEETING OF PROTECTIVE ASSOC.

Travelers Protective Association of Virginia Gathers at Roanoke.

[SPECIAL TO THE GAZETTE.] Roanoke, Va., May 22.—This city is today the Mecca for commercial travelers from all parts of Virginia, the occasion being the seventeenth annual state convention of the Travelers Protective Association. The convention opened with President H. B. Adams of Lynchburg, in the chair. The reports of Secretary-Treasurer H. L. Harwood of Richmond and of other officers and committees, contained figures that showed a gratifying increase in the membership of the organization and a satisfactory condition of affairs generally.

The convention will remain in session over tomorrow. The entertainment program is an elaborate one and with the business sessions will keep the delegates exceedingly busy. Numerous delegates, many of them accompanied by their wives, are in attendance from Richmond, Lynchburg, Staunton, Danville, Newport News, Petersburg, Martinsville and other Virginia cities.

AUSTRALIAN TOUR FOR MISS ANGLIN

Sailed Today for Australia From Victoria B. C. for Short Tour.

[SPECIAL TO THE GAZETTE.] Victoria, B. C., May 22.—Miss Margaret Anglin, the actress, was among the passengers sailing from here today for Australia. Miss Anglin plans to make a short starring tour in Australia, under the management of J. C. Williamson. When she returns next fall she will begin her season in New York in "The Awakening of Helen Ribley."

HAS MORE TROUBLE THAN OTHER PEOPLE

State Treasurer Dahl in Hot Water With His Office Force Much of the Time.

[SPECIAL TO THE GAZETTE.] Madison, Wis., May 22.—State Treasurer A. H. Dahl is having more trouble with the force in his department under civil service than all his predecessors in that office had all together. He has gone through two re-employment suits brought by subordinates whom he dropped, one of which cases went against the treasurer, and now he has dropped a third employee, Roy Miller, who was recently temporarily appointed as assistant bookkeeper. Miller was postmaster at Alton Center. A postoffice inspector found some irregularities in the office and as a result a federal grand jury returned an indictment. The charge is not serious and it is said that Miller will be able to escape conviction, but Treasurer Dahl thought it unwise to retain the man in office in his department. Miller was one of the three highest in a civil service examination, and as there are now only two eligibles on the list, another examination will have to be held. Treasurer Dahl can make an appointment outside of the civil service merit system.

BIG ATHLETIC MEET IN MISSOURI TODAY

Missouri Valley Conference Holds Big Meet at Kansas City.

Kansas City, Mo., May 22.—Never before in the history of the Missouri Valley conference has there been such a wealth of runners, leapers and weight hurdlers of high grade as are entered for the annual meet that is to be held tomorrow at Elin Ridge park. The state colleges of Missouri and Kansas will send their best men and additional interest will be given by the participation for the first time of representatives from Iowa, Drake and the university of Nebraska.

Preached on Street: Lorenz Schmidt the missionary, preached last evening on the street. He gave an interesting talk and made an appeal to the public for aid in the work he is about to undertake in the city.

NEW BATTLESHIP TO BE LAUNCHED SOON

Governor Warner and Officials Will Attend Launching of the Michigan.

[SPECIAL TO THE GAZETTE.] Washington, D. C., May 22.—An official party of representatives of the Navy department has arranged to go to Lansing next week to witness the launching of the great battleship Michigan, at the yards of the New York Shipbuilding and Drydock Company. The big sea-fighter will be christened by Miss Cary Newberry, daughter of Truman H. Newberry, assistant secretary of the Navy, whose home is in Michigan. Governor Warner and a party of state officials of Michigan also will attend the launching.

The Michigan will be a notable addition to the navy. The armament plans call for a main battery of eight 12-inch breech-loading rifles, and two submerged torpedo tubes, while the secondary battery is to consist of twenty-two 3-inch rapid-fire guns, eight 10-pound semi-automatics, two 3-inch field pieces, and four machine guns of 30 caliber. The 12-inch guns, of which the Michigan will carry twice as many as are on board any American vessel now in commission or building, are to be mounted in pairs, in four electrically controlled cylindrical turrets, each with an arc of fire of 270 degrees, two turrets being forward and two aft. The guns of the secondary battery will be placed in commanding position, and are to have large unobstructed areas of fire. The torpedo tubes will be installed forward.

The hull of the Michigan will be protected by a waterline belt of armor that will vary in thickness from twelve to eight inches in some sections, from twelve to ten inches in other sections. The casemate armor is to be from eight to ten inches thick, while an armored bulkhead ten inches thick will extend endwise across the ship.

The engines of the new battleship are to have a combined indicated horsepower of 15,500, each engine to be in a separate watertight compartment. The twelve water-tube boilers, which are to be fitted with superheaters, will be in three watertight compartments, and the coal bunkers are to have a maximum capacity of about 2,200 tons. All the main compartments below the gun deck will be provided with forced ventilation, the combined capacity of the seventeen blowers being not less than 100,000 cubic feet per minute.

WAS ACCIDENTALLY SHOT THROUGH LUNG

John Barker of North Freedom Dies as Result of Hemorrhage Today.

North Freedom, Wis., May 22.—John Barker, vice president of the North Freedom bank of this city, who accidentally shot himself through the lung yesterday while crawling through a fence, died as a result of a hemorrhage. He is survived by a wife, and son and daughter.

LEMONWIER RIVER OVERFLOWS BANNS

Is Doing Immense Damage to Growing Crops East and West of Mauston.

[SPECIAL TO THE GAZETTE.] Mauston, Wis., May 22.—The Lemonwier river has been swollen by recent rains until it has overflowed its banks to the east and west of Mauston and is flooding the farms on both sides, doing immense damage to the growing crops.

Broke His Arm: Little Walter Churchill, son of Arthur Churchill of the town of Center, fell from a hay mow yesterday morning and broke his left arm. He was brought to Janesville yesterday afternoon, where Dr. Q. O. Sutherland set the arm.

SEATTLE WILL GIVE WARM WELCOME TO BIG FLEET

Preparations Are Being Made To Receive The Atlantic Fleet In A Few Days.

[SPECIAL TO THE GAZETTE.] Seattle, Wash., May 22.—Seattle is awaiting the arrival of the Atlantic battleship fleet in eager expectancy. The city is already filling with visitors, the streets are gay with flags and bunting and the city officials are awaiting the signal to steam out into Elliott Bay to present the golden key, emblematic of the freedom of the city, to Admiral Sperry, who will receive the token in behalf of the officers and men of the fleet. The arrival of the ships is expected at an early hour tomorrow afternoon.

The reception and entertainment committee of the Chamber of Commerce, which has in hand the programme of entertainment, has completed its plans on an elaborate scale. After the official greeting of the ships on their arrival tomorrow afternoon, there will be a grand parade in the harbor of hundreds of vessels containing public and private parties out to see and participate in the review.

A big reception to the officers will be given tomorrow night at the New Washington hotel, one of the largest and most magnificent hostleries on the Pacific coast. The first floor of the big building will be lavishly decorated and several bands will furnish concert and dancing music. An elaborate supper will be served. The officers will be taken for an automobile trip to Snoqualmie Falls Sunday afternoon and a champagne luncheon will be served in a big tent. Monday afternoon the sailors and public will be entertained at athletic sports of every description and a grand barbecue at Woodland Park. Scores of cooks will be on hand to prepare the dinner. The cooking will be started the night before and the blue jackets will be given an elaborate feast. Four bullocks and several dozen sheep and hogs will be roasted and served with accompanying side dishes. Monday afternoon and evening the officers will be entertained at the Rialto Club.

Tuesday morning is the time fixed for the great land parade, in which 15,000 men are expected to be in line. Tuesday afternoon will be marked by the presentation of a silver loving cup to Admiral Sperry, by the fraternal organizations of the city and state. Aquatic sports, theater parties, vaudeville entertainments and smokers will also form a part of Tuesday's programme.

The railroad men estimate that they will bring at least 100,000 visitors into the city during the stay of the fleet here. Special trains have been provided for parties from Spokane, White Sulphur, Portland, Vancouver, Boise and other cities throughout the Pacific Northwest. Hotels and restaurants have made unusual preparations for the event, and all have agreed to refrain from raising prices.

HE KILLED SIX MEN DURING HIS CAREER

Indiana Man Arrested for the Wholesale Deaths He Has Accomplished.

[BY ASSOCIATED PRESS.] South Bend, Ind., May 22.—James Brimingham, aged 40, is under arrest at South Bend, Ind., charged with six murders. The police say he has already confessed to two and prosecutor Brimingham is confident the prisoner will admit the other crimes. His arrest followed an alleged attempt to make his wife his seventh victim. She escaped and appealed to the police. The list of Brimingham's victims, according to the officers, are: A man in Kansas, killed by Brimingham when he was 16 years old; a railroad man in Missouri, name unknown, killed seven years ago; two men sleeping in a tent in Missouri, names unknown; David Huff, at Dowling in June, 1907; Smith Horton of Dowling in Feb., 1908.

FOREST RESERVE IS INCREASING

COMMISSION HOPES TO ADD \$200,000 MORE BEFORE YEAR CLOSES.

PRESERVES THE RESOURCES

State Forester Griffith is Pleased with the Merit System for Choosing Woodmen.

After much work and opposition the woodmen in northern Wisconsin have been placed on the civil service list and will take part in the building of the new forest for Wisconsin. The woodmen were in many instances selected for this work on the recommendation of politicians.

According to a dispatch to a northern paper State Forester Griffith tells of a man that was sent up into the woods to report a trespass. After considerable work on the part of the forestry commission he was prevailed upon to make his report. He thought if the state got \$100 for the trespass it would be doing well. The company that made the trespass afterwards gladly settled the matter for \$1,000.

300,000 Acres in Reserve
All woodmen who enter the state service now are under the civil service, and are taken from the competitive list and Forester Griffith says that he is well pleased and would not, if he could, go back to the old system. The state has now acquired for forest purposes 300,000 acres and the forestry commission hopes before the year closes to make it 500,000 as gifts of land are coming in every day. The lands all cover the area where the principal rivers of the state.

Besides the Chippewa there is the Wisconsin whose source is not far away among the myriad of beautiful little lakes, the St. Croix which for a long distance is a boundary line between Wisconsin and Minnesota and the Menominee river that marks for more than 100 miles the separation of the Badger state from the northern peninsula of Michigan.

Are Not Valuable
These lands, and those that will be added from time to time, are not valuable for agricultural purposes and they have in the hands of the lumbermen for the wasteful processes of the early days have denuded of all that was best, leaving the smallest growth to the mercy of forest fires.

And now it is the purpose of the state to restore the forest by a careful policy of protection, not only for the value of the timber that may be grown but to the end that by reforestation the waters which fall so bountifully in that section, instead of running off with the first flood, doing vast damage to the industries and people who hold in the cool umbrageous recesses to sweep away slowly into the streams and on to the rivers in a time of need.

TRAPPED SAILORS PLEAD NOT GUILTY

John Campbell and Frank Rogers Claim to Know Nothing About Larceny of Clothing from Boxcar.

John Campbell and Frank Rogers, the two men who were delivered into the hands of the police about one o'clock this morning after being imprisoned in a St. Paul boxcar by the train crew of the Chicago-Janesville freight which arrived here at 12:45, appeared in municipal court this morning and pleaded not guilty to charges of larceny preferred against them. Both waived examination and their trials were set for Thursday next.

The car contained a spoon of wire, a large sack of peanuts, and a box labeled "clothing" at the time it left Chicago. When checked up here the box of clothing was missing.

The peanuts had also been dumped on the floor and the sack and the seal on the car door had been broken. It was made by the train crew immediately upon their arrival here; also that two men were sleeping in one end of the car. Without further ado the door was closed and nailed shut and with the aid of a switch-engine the car was taken to the depot from whence a call was sent to the police station.

The two men claim that they got aboard the car about thirty miles this side of Chicago and that four other passengers were already in possession; that they lay down and went to sleep almost immediately thereafter; that they were first fully awakened when they heard the train crew miller up the door; but that they have a faint recollection of one of their associates disembarking a short time prior to this with some sort of luggage which they took for a dress-suit case. On Rogers' person were found cards showing that he is a member in good standing of the Lake Steamers' union and documents in Campbell's possession testified to his membership in the Sailors' Union of the Pacific. Both claim that they were trying to get to Milwaukee in the hope of securing employment on some vessel sailing from that port and Chief of Police Appleby is inclined to give some credence to what they say. A C. M. & St. P. detective was expected to arrive from Chicago this afternoon to investigate the case.

DREAMED HE WAS GOING TO BED IN EVANSVILLE

Henry Myers Lost a Portion of His Wearing Apparel During a Revolt Last Night and Was Arrested.

Henry Myers of Evansville, intoxicated and shorn of such useful wearing apparel as shoes, coat and vest, and hat, was picked up on Academy street by Officer Morrissey at a late hour last evening and escorted to the police station. He gravely assured the police that somewhere along his devious pilgrimage he dreamed that he was going to bed in the door old town to the westward, and that nothing upon this supposition he cast off the afore-said sartorial embellishments, and permitted the cares of the day to "fold up" in tents like Arabs, etc., etc. Officer Morrissey went back to the spot where he had found Mr. Myers, but was unable to locate the missing articles. This morning Chief Appleby fitted Myers out with a pair of shoes, a coat, and a hat, and gave him a job beating carpets.

PROGRAM OF THE TREE-TRIMMERS

Systematic Work of Removing Foliage Which Interferes With Light and Traffic to Begin Monday.

Only such branches of mature trees, bordering the highways, as hang below an imaginary line drawn from a point eighteen feet above the center of the street to a point ten feet above the sidewalk will be lopped off or pruned by the special tree-trimmer corps in charge of John Behrendt, which is to start out with a scaffold-truck made for the purpose on Monday next. Small trees, which have not attained height or sufficient density of foliage to interfere with light or traffic will not be interfered with. In carrying out the provisions of the Clark ordinance the park committee has directed the men to do their work in such a manner that reasonable persons may have no cause for complaint. Their instructions are to remove, within the limits that have been prescribed, only that foliage which keeps the light from streets and sidewalks and hampers the drivers of all vehicles, and all other trimming must be done by the property owners. While there are many conflicting theories regarding the proper time for carrying on this sort of work, the park committee, the least injury will be done when the sap is flowing freely through the pores of the wood and out through the leaves and buds, as at the present season. This sap, exuding from the branch at the place where it is severed, forms a gluey substance which protects the exposed section and aids in the healing process. The men are to begin at the river and work outward on each side and no further notice pertaining to the matter will be given to property owners.

CASTE FOR PLAY OF THE SENIOR CLASS

Barbara Fritchie, a Tale of the Civil War Days, is to be Acted.

This year the Senior class of the high school is going to give the play, "Barbara Fritchie," by Clyde Fitch. Sixteen members of the class will take part in this play and new scenery is being made for their use. This play is a story of the period 1863 during the Civil war and was made famous by Julia Marlowe, who played it with great success. The pupils are improving daily under Mrs. Day's coaching and great things are expected of them. The characters will be taken as follows:

Barbara Fritchie, Emma Shoemaker Sally Negley, Florence Bagley Sue Royce, Marie Spahn Laura Royce, Edith Clapp Mrs. Hunter, Anna Zickler Mauney Lu, Clara Blank Capt. Turnbull, John Underwood Mr. Fritchie, Leo Atwood Col. Nogley, Leigh Woodward Jack Negley, Roger Cunningham Fred Gabet, soldier, Roy Church Tim Gabet, soldier, Harry Fitch Edgar Strong, Harry Dietrich Dr. Hal Boyd, Floyd Bonham Sargent James, Frank Hayes Corporal Perkins, Rufus Godfrey Orderly, Frank Hayes A Boy, Robert Conway Soldier, Townspeople, Children.

The Period of 1863.

REPRESENTATIVE WINFIELD S. HAMMOND OF MINNESOTA.

The speech nominating Governor John A. Johnson of Minnesota for the democratic presidency in the Denver convention will be made by Congressman Winfield S. Hammond of the Second congressional district of Minnesota. Hammond is Johnson's political mascot. He nominated Mr. Johnson for the governorship for both his terms, and each time Johnson carried a normally republican state into the democratic column. It is proposed that Hammond undertake a similar task internationally instead of merely within the borders of his home state. Congressman Hammond is something of a democratic mascot in his own half, also, for he has gone to congress as a democrat by defeating former Representative McCleary, who was one of the republican leaders of the house during his service in that body.

According to the announcement from the Johnson headquarters, Congressman Hammond will make the nominating speech unless some contingency arises, giving the impression that it will be advisable to have the speech made by a man from another section of the country.

Turnkey Militia Leaves: Owing to the illness of his parents, who are now located in Spokane, Wash., Guy Militia has resigned his position as turnkey at the county jail and left last evening for the western city. Sheriff Fitch's eldest son, Leo Fitch, will fill the vacancy during the summer.

NEWSBOYS' UNION.

Fort Wayne, Ind.—The newsboys of this city have the most unique union on record, which was organized 11 years ago by Charlie Phelps, now king of the newsboys.

Boys who join the union must refrain from using tobacco, keep their hands and face clean, go to school if under 16, avoid loitering about saloons, keep their clothes brushed and be polite to everyone.

If a boy offends twice he is expelled from the union. It costs a boy nothing to join except the price of a badge. A committee looks into all charges made against members by patrons. Secret meetings are held with faithful boys are also recommended for good positions. There are only three non-union newsboys in Fort Wayne. They were expelled from the union for bad conduct.

OBITUARY.

Frank M. King

Frank M. King, the youngest son of Mr. and Mrs. B. W. King, died at his home in Brooklyn, N. Y., last evening. Mr. King was born in Janesville in 1875. He left home 14 years ago to accept a position in the postal service at Havana, and a few years later was transferred to the foreign mail department in the New York city post-office, which position he held at the time of his death.

Mr. King was unmarried. He lived with his father and mother in Brooklyn, and his presence in the home was an inspiration for he was a companion as well as a son, and the little group of three were a happy family.

The direct cause of his death is not known, but he had been an uncomplicated sufferer for months from loss of vitality, induced by close application and hard work.

Arrangements for the funeral have not been made, but the remains will be brought to Janesville Sunday and rest in the family lot at Oak Hill.

Anna B. Catlin

Mrs. Anna B. Catlin, nee Anna B. Thorpe, died at her home in Chicago on the sixteenth of this month. Funeral services were held in Chicago at her late home on Monday afternoon, after which the remains were brought to Milton Junction, where she was born and spent part of her life, and on Tuesday after a brief service at the M. E. church conducted by the pastor she was laid to rest in the Milton Junction cemetery. The pallbearers were: Geo. B. Keith, Will Conley, F. L. Hull, J. R. Hinkley, J. A. Paul and F. E. Morris.

She is survived by one sister, and one brother, A. M. Thorpe of Milton Junction. Her husband, a daughter, Sarah, and a stepson and daughter also are left to mourn her loss.

WALTONIANS ARE WAITING MONDAY

FISHING SEASON OPENS ON THAT DATE THROUGHOUT STATE.

SIGNS ARE ENCOURAGING

Reports from the Fishing Grounds Are That the Sport Will Be Good This Year.

Janesville fishermen are anxiously waiting for Monday and the fishing season. Just whether there will be an exodus to the northern woods or whether Lake Koshkonong and the Rock river, the lakes about Madison, or Geneva or Delavan will be favored, it remains to be seen, but it is safe to say that many a hook will be flung into the water on Monday in the immediate vicinity of Janesville.

Call of the Wild

Wisconsin has fishing laws that are prohibitive in many localities to good fishing. Mout for the whole state, they work a hardship on the southern waters where the spawning season has long been over. In the northern waters the season is rightly fixed. A brief summary of the fish that may be caught on Monday and afterwards is as follows:

Muskegon—May 15 to March 1, succeeding.

Pike—May 15 to March 1, succeeding.

Pickering—May 25 to March 1, succeeding.

Bass—(Green, silver, rock and white), May 25 to March 1, succeeding.

Brook trout—April 15 to Sept. 1, succeeding.

Black bass—June 10 to March 1, succeeding.

Fiddler catfish and bullheads—May 25 to March 1, succeeding.

Red Letter Day
For a month or more the canny, stern like command has been ringing in the ears of Wisconsin sportsmen. Hundreds, even thousands, have patiently awaited the coming of May 25 and when the bars are let down Monday, an army of disciples of the venerated bank will start on their annual pilgrimage to the shady haunts of the fluky beauties.

May 25 is the red letter day of Wisconsin's sporting calendar. It marks the opening of the fishing season, a time when the staid sportsman can cast aside cares and worries, for rest and recreation, in battle with the gamely inhabitants of the deep.

EX-SENATOR W. E. CHANDLER.

Washington, D. C.—The right of about 100 Taft delegates to sit in the republican national convention at Chicago is questioned in a letter addressed to the members of the national committee by former Senator W. E. Chandler of New Hampshire.

It is claimed by the opposition that practically all of the delegates which are instructed for Taft in the southern states were selected by "Lily White" conventions. Senator Chandler, in his letter, does not specify cases, but asks the committee to go on record as to what will be their policy in seating delegates. He says:

"It seems to me that, considering the fifteenth amendment of the constitution and the history of the republican party, such a convention, upon its adoption of the Lily White rule as its fundamental principle, instantly ceases to be a republican body; so that its delegates cannot for a moment be considered as entitled to seats in a republican national convention to nominate a president."

BRODHEAD
Brodhead, May 22.—The Brodhead Gun club held a shoot at their range in the south part of the city on Wednesday afternoon, when some very good scores were made. As a result J. B. Pierce, O. J. Barr, A. J. Woster, J. A. Koller and Adam Fleck, Jr., attended a shoot of the Janesville club yesterday.

Attorney Loveland of Monticello was a visitor in Brodhead on Wednesday.

There will be English services at the German church next Sunday evening at 7:30. Rev. H. J. Kohlhey of Evansville will preside.

The three-comedy, "The County Fair," by local talent, will be presented in Doughton's opera-house on the evening of June 29th.

Good Reasons why You Should Buy the Newman Bros. Piano

Because it is constructed on right principles for pure tone and durability.

Because the action, scale, sounding-board, and all vital parts of the piano are made under skilled experts.

Because it is the constant aim of the manufacturer to produce an artistic instrument that stands in the front ranks of all pianos.

Because it has a deep, full, round tone that is pleasing to hear, and a piano that stands well with the critic's ear.

Because it is just the piano you ought to buy if you are looking for something good and as good as the best for the least money.

USE PRINTER'S INK.

Mail Order Houses Flood the Country With Advertising.

CATALOGUES AND JOURNALS.

In Fighting This Serious Menace Merchants Must Resort to Publicity and Advertise in the Local Press—Concerted Action Necessary.

The most serious problem confronting the retail merchants of the country today and the one that is giving them the most concern is that of the so called mail order system—the retail catalogue house trade.

This is an era of combinations—trusts, both financial, industrial and commercial. But the most menacing trust to the world today, says Max-well's Tullman, is the commercial combination that tends to destroy the retail business of the country.

Not satisfied with the mercantile field, these commercial trusts are also seeking to become the financial depositaries for the rural districts by opening bank departments and as an inducement to the farmer offering 6 per cent on deposits.

The retail catalogue houses are managed by farseeing and broad gauge business men who fully realize the value of advertising. They have been spending millions of dollars a year in systematic advertising campaigns. In addition to their elaborate catalogues, they sustain with their patronage hundreds of mail order journals. These journals have a combined circulation of \$2,000,000 a month. They are saved broadcast through the country. Nor do the catalogue houses stop here. Every magazine, agricultural or religious paper that will accept their advertisements carries them.

The lines of this great conflict between commercial interests are clearly drawn. On one side are the retail merchants and the publishers of the local press, on the other the catalogue houses and the numerous publications which have sprung up. In a night, backed by advertising appropriations that run into the millions. The enemies of the local publishers and the retail merchants are allied as perfectly as is any other modern trust.

Many of the larger catalogue houses now do their own manufacturing. In the end the jobbers and manufacturers who now sell to the catalogue houses will be eliminated. When that time comes, and it certainly will come unless something is done to prevent it, a few great commercial giants, monstrous in size, influence and resources, having practically no competition, will combine to dictate the price the mass of the people must pay for every article they sell.

This inevitable conclusion is not a pleasant one to contemplate, and it behooves those who are already feeling the heavy hand of this unnatural combination for control of trade to bestir themselves in their own defense and adopt measures for self protection.

The retail merchant and the local press are entirely unorganized and are in no concerted way making common cause against a common danger. Attempts have been made by the merchants in some localities to stem the tide by refusing to buy from jobbers who sell to catalogue houses. This is good so far as it goes, but if the catalogue houses cannot get the goods from one source they will get them from another and, if necessary, will buy the manufacturing plant to secure the output. So long as they can by a lavish use of printer's ink create the demand, just so long will they manage to get the goods to supply that demand.

Fight the devil with fire. Any plans for the protection of the retail merchants and the jobbers and the manufacturers who sell to the trade must go to the very root of the evil—must meet the catalogue house competition at every point and on their own grounds, the advertising field.

The catalogue houses are conducting the most comprehensive, systematic and far-reaching advertising campaign that was ever planned, and they have been at it for years, spending dollars where the retail and wholesale merchants have spent cents. They have had the business courage to put their money into publicity, knowing that they would get it back multiplied a hundredfold. They have created the demand for their goods and educated the people to look upon the mail order business as a godsend.

What has been done in an organized way to offset this avalanche of mail order journals and catalogues?

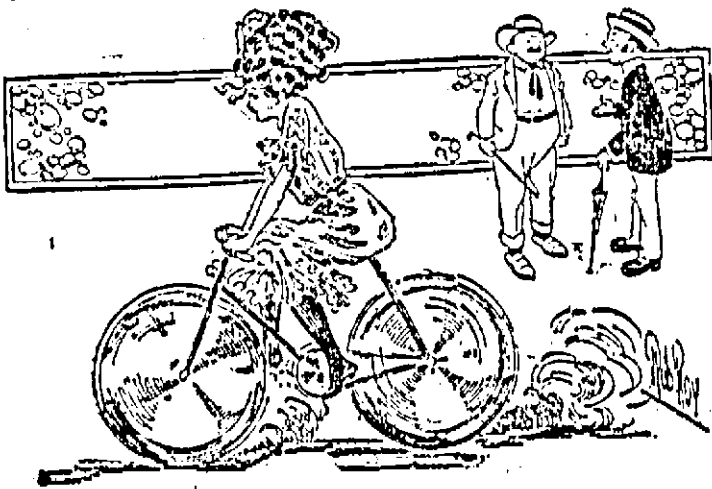

Nothing. Some of the local merchants have advertised liberally in the local press, but a much larger number have utterly failed to keep up with the procession. The people often do not know what the local merchant has in his store; neither do they know the prices, but they do know what the catalogue house has to sell, and the price is always before the eye.

If the retail trade is to hold its ground against the competition of the catalogue houses, they must meet them on the broad field of advertising and publicity as well as on the field of prices. And this must be done through the local press.

In nearly every town the local publisher has stood manfully by the interests of the community by refusing to run mail order advertisements. Further, he stands ready to prosecute an aggressive campaign against the mail order idea. What is necessary is concerted action among the merchants and a liberal use of the local columns to convince the people that they can save money by trading at home.

Social Wisdom.

True social wisdom has many of the elements of love, and in common with charity is long suffering and kind.

THAT'S WHAT HE SAID.

Brown—It is.

Jones—I thought you would never permit her to ride one.

Brown—I don't permit it; but what difference do you suppose that makes to her?

WORKMEN—WHERE CAN WE FIND THEM?

"The little kingdom of Bavaria, with a population not much greater than that of New York city, has 290 trade schools, giving instruction, night and day, in twenty-eight arts and crafts. In this whole country of 85,000,000 people, there are fewer trade schools than are in that little German kingdom!"

This startling piece of information comes from the May number of "American Industries," with the following practical comments:

"Two-thirds of the convicts in America's prisons are men without a trade or profession. The superintendent of a penal institution, being asked how many of the prisoners had knowledge of a trade, answered: 'Absolutely none. If they had they would never have come here.'"

"These two statements, appearing in recent addresses upon the subject of industrial education in the United States, make a startling commentary upon the progress which a people fond of boasting themselves the most practical in the world have made toward solving a problem which is among the most urgent confronting every industrial country of the world today."

"The question of what shall be done to provide the industrial education on which depends the future supply of skilled labor necessary to maintain our country's place in the race for industrial supremacy, is one of those vital questions, which concerns every American. It concerns the prosperity of employers and workmen alike, but more than that, it concerns the future welfare of the republic."

"Upon the course taken by those in whose hands rests the decision of the present time will depend whether the American children of the next generation are to have the advantages of the Bavarian child of today, or whether they are to be left to the conditions which are filling our prisons with convicts who are criminals because they had no other trade."

"In deciding what that course shall be, the manufacturers of America, united in such organizations as the National Association of Manufacturers, can exert an influence commensurate with the importance of the question to them. The educators of the country are already aligned in support of the cause of industrial education. It only remains for the employers as a body to add their influence in order to overcome the two great obstacles in the way—the indifference of the mass of the people and the mistaken, but nevertheless bitter, opposition of the labor unions, which fancy they see in the establishment of schools to educate skilled workmen the doom of the closed shop and union domination."

There are two causes for this dearth of skilled American workmen. One is the attitude of organized labor toward the apprentice system, which limits the number of boys that may be taught a trade. The other, the attitude of the boys themselves, for the fact is generally recognized that the American boy is as averse to a trade, as is the American girl to domestic service.

The organized labor proposition will soon come to be a stumbling block, for the "open shop" is rapidly gaining ground, and no shop of this kind refuses admission to boys as apprentices.

bles, but the boy himself is a different problem.

There was a time when every boy's education was considered incomplete unless it included the knowledge of some skilled occupation, to fall back on in case of necessity, but that time is of the past and today the country is flooded with young men who are satisfied to work in stores and offices on \$10-a-week salaries with nothing ahead of them in the way of prospective advancement.

Skilled mechanics, in many lines, receive double the money, or more, and while it is too late to make over this army of young men, we go on filling up the ranks with new recruits from our homes and schools, to the detriment of the boys and embarrassment of the nation.

While it is true that our best business men are self-made, coming from behind the counter, and obscure positions, it is also true that the great mass of boys who start out with no definite purpose remain in obscurity.

The fault is with the home training and with the schools. The home indulges the foolish notion that "Johnny" is made of more than ordinary clay, too good for a trade, and so the boy not knowing what he wants, becomes an ordinary drifter, graduates from the grades at 18, marries young, and discovers, when too late, that somebody made a mistake in starting him out.

The school fails to recognize his genius for any particular calling, and so, what little education he receives is along the line of preparation for the university which he never enters, for he leaves school long before the day of graduation to enter the university of life, with no equipment for the unequal struggle.

The commercial course and manual training department, which so many people regard as fads, are the most important features in the public school system because they help the teacher in aiding the boy to discover himself. When the entire course is made more practical, and better adapted to the 95 per cent of pupils who graduate from the grades, there will be more self-supporting mechanics than there are today.

Wisconsin proposes to take a hand in the national republican platform, and unless reform measures are adopted, they will be presented by minority report. The state has won its spurs, and the winners are so elated that they purpose to keep up the fight until there is nothing left to reform, and then the millennium.

With both parties committed to tariff revision, there is practically no national issue this year except the principles and policies of the parties involved, and the men selected to advocate them. With Taft in the White House, normal conditions will soon be restored, but the success of Bryan would mean unrest and uncertainty, followed by continued business depression. The issue is party supremacy pure and simple.

The chances are that the manufacturers and railway managers will get together on freight rates, and avoid the trouble that would occur through a radical advance, on the part of the railroads. Nothing but time and patience will right conditions, and disturbing elements of all kinds should be avoided. The railroads need more business, but they are not the only sufferers.

The democrats of Ohio hope to carry the state this fall because of the disaffection in the ranks of the republican party, but Foraker is too loyal to encourage desertion and the state will be in line in November.

JUDGE STRODE.

Des Moines, Iowa.—A re-assemblage of the "National Senatorial Amendment convention" will undoubtedly be called early this fall by Judge J. B. Strode of Lincoln, Nebraska, who was elected president of the organization here two years ago when representatives from some 15 states gathered to inaugurate a movement to get selection of senators back to the direct vote of the people.

That convention was called by Governor A. B. Cummins and a good representation responded. Then it was determined to get all the legislatures possible to pass resolutions demanding of congress a submission of the question whether or not a constitutional convention should be held to change the law regarding the method of selecting senators. As a large number of the states have already taken such action and a great number will hold sessions of the legislature this winter, it is expected President Strode will call the convention together to urge the states to take this necessary action this year.

Saw the End.
"What is the final end of man?" queried the Sunday school teacher. "The letter N," answered the small boy, at the foot of the class.

ROYAL Baking Powder Absolutely Pure

The only baking powder made with Royal Grape Cream of Tartar

There can be no comforting confidence when eating alum baking powder food. Chemists say that more or less of the alum powder in unchanged alum or alum salts remains in the food.

Heart to Heart Talks.

HASTE MAKES WASTE.

Don't be in a hurry. Modern haste is often waste. Many illa, economic, moral, individual, come of it. Life may be too strenuous for good results. The spirit of hurry, good in its place, causes friction, clashing, losses.

Don't be in a hurry. Many are in haste to get rich. They patronize get-rich-quick schemes. They speculate. Where one wins, a thousand lose. There is only one safe way to make money—the old fashioned way of honesty, industry, economy. That way is slow, but it is reasonably sure.

Don't be in a hurry. Young persons get in a haste to be educated. Education is a GROWTH. Knowledge, experience, must not only be digested, but assimilated. That requires time. It does not delay the boy or girl to stop between terms to teach school. Opportunity is given to put into practice some of the things learned in colleges.

Don't be in a hurry. Some are in haste to make a reputation, but reputation without character is a GHOST. Mushroom characters will make mushroom reputations. You will be taken for what you are. The world will size you up. Build solidly.

Don't be in a hurry. You cannot expect to get rich quick, educate yourself in a day or build a reputation on a flimsy foundation.

Don't be in a hurry. Mind and body can only be strengthened by DEVELOPMENT. That takes time. Relaxation has given it out that RELAXATION is the secret of mental and physical life. Nervous and muscular contraction is wearing the hurried man to a frazzle. Therefore men and women are excitable, frictional, erratic; therefore the breakdowns, the asthmas. It is the constant TENSION of nerve and muscle. Relax frequently. You will succeed better. You will live longer.

Don't be in a hurry. Suppose you get wealth. How will you enjoy it or use it to the advantage of the world if you are worn out, enervated, wrecked? Suppose you get an education, and like Thomas Curran, aged twenty, of the senior class of Yale, '03, you receive your diploma on your deathbed, having killed yourself for a piece of sheepskin. Suppose you gain a reputation for brilliancy and give in exchange a well balanced, amiable mind or a sound physique.

Don't be in a hurry. Work steadily, surely, surely. Hold the even tenor of your way.

Money the New Yorker's God.
An aged man familiar with the people of the metropolis says that nothing seems to astonish a New York man as much as to find some desired purpose which cannot be accomplished by money.

Life's Little Plagues.
Little fears, little sorrows, little worries are what crush our spirits. You can slay a lion, but you can't get away from mosquitoes.

The Singer building in New York is the highest in the world, but there is not enough wood in it to make a load pencil. It can never catch fire from within. WILL CLOSE OUT STOCK

Nichols Company to Leave Present Quarters November 1st.

The present lease on our store expires November first next, and we were unable to renew it which therefore leaves us but one alternative and that is to dispose of our stock prior to that time. We do not care to move a dollar's worth of the stock and in order to make sure that the entire lot of goods will be disposed of we shall inaugurate a series of clearance sales beginning with tomorrow.

It will be of interest to every person who cares to make a dollar do its utmost. In this immense stock are household necessities and articles of every day use the sale of which at bargain prices will mean just so much money in the buyer's pocket, a clean saving in fact. It is our intention if possible to acquire other quarters in Janesville. We have a great many acquaintances and customers and are well satisfied with the patronage given us during our comparatively short residence here, but whether we are successful in finding another location or not we do not care to move any of our present stock. Therefore, we can state that prices will be made to move everything within the next few months.

The large announcement on another page gives you an idea of the items and prices which are included in the first clearance offering.

AUTOMOBILE CASE IN CIRCUIT COURT

Witnesses Are Being Examined Today in the Damage Suit of Fred Boelke vs. Wilson Lane.

Before a jury in circuit court the \$300 damage action brought by Fred Boelke, a farmer living in the town of Harmony, against Wilson Lane is on trial today. The plaintiff claims that his team of horses were badly frightened and one of them seriously injured as the result of Mr. Lane's coming up behind them suddenly with his automobile. The plaintiff in the action, Dr. Perschbacher, and a number of other witnesses have been examined. Nolan, Adams & Reeder represent Boelke and J. J. Cunningham and Charles Pierce are attorneys for Mr. Lane.

August Ludolph Jailed: Marshal Welch of Edgerton arrived here yesterday afternoon with August Ludolph who was sent from here to the asylum some time ago and who recently created a disturbance in the Tobacco City while in a state of intoxication. He was committed to the county jail for ten days. James Reilly of Beloit is also here for a ten days' sojourn at the bastille.

Burt Wheelock's Awful Threat: Burt Wheelock, employed as a driver for the John Ploverlight coal and wood yard, frightened his wife at the home on North Franklin street with a fearful threat last evening. According to the story which she told at the police station, he drew a knife across his throat and exclaimed in supernatural tones: "This is the last of me!" No gory spectacle greeted the officers upon their arrival at the house. Somewhat sheepishly, Mr. Wheelock admitted that he "just drew a finger across his throat to scare her."

Verdict For Defendant: After deliberations lasting ten minutes, the jury trying the damage action brought by John Barry against Peter Goodman before Judge Tallman yesterday afternoon, returned a verdict for the defendant. Goodman pleaded guilty to the criminal charge of assault and battery in municipal court and paid a fine. Barry will have to stand the costs of the civil action. Both cases were the outcome of a fight near the Northwestern depot.

Entertained For Miss Nee: At her home on Fourth avenue, last evening Miss Phoebe Cunningham entertained a company of young ladies for Miss Katherine Nee of Ft. Atkinson, who is soon to wed James Cunningham, of Chicago, a brother of Atty. J. J. Cunningham of this city. Miss Nee formerly resided in Janesville and who has many friends here who will be interested in the forthcoming event.

ONCE A COW PUNCHER

BRYANT BUTLER BROOKS NOW
GOVERNOR OF WYOMING.Has Succeeded Through His Own Efforts and Now Owns a 100,000
Acre Ranch—Is Native of
Massachusetts.

Boston.—Of the many Massachusetts-born leaders of public life in western states the latest to rise to the prominence of executive of a state is Bryant Butler Brooks, governor of Wyoming.

Gov. Brooks was born in Barnardston, Mass., and his early schooling was obtained in that little town of 1,000 souls in the central part of the state.

When he was ten years old his parents removed to Chicago, and there the lad grew up in the restless life of the rapidly developing middle west. As a young man he knocked about, as all self-made men must, working as a farm hand and as a cow puncher, and by way of diversion putting in a winter as a trapper and hunter in Wyoming.

He is now one of the wealthiest men in the state, besides being its governor. He is interested in many commercial ventures, and lives on a ranch of 100,000 acres—a little state in itself—where he has 30,000 sheep, thousands of horned cattle, and several hundred horses. His "hired men" on his farm number 50.

Gov. Brooks is interested in coal mining and in building in Wyoming, in lumbering in Mexico, and in ship-building in Maine.

Gov. Brooks is one of the sons of the late Elias Newton Brooks and Mallissa Minerva Burrows Brooks, both of the best of New England stock. The father was clerk and treasurer of Barnardston for about 20 years. He served in the house and senate.

Gov. Brooks' life has been one of ceaseless activity since he left home at the age of 18. He was 19 when he pulled freight in Nebraska and went to Wyoming as a cow puncher.

An exciting incident of those days was when he was sent with 20 other men to Idaho to round up and bring to Wyoming 2,000 head of cattle. The party had literally to fight Indians

GOV. BRYANT BUTLER BROOKS

and cow thieves on their way back for the several hundred miles. A little later young Brooks worked as a cow puncher for Maj. Volcott, who controlled the "V. R." outfit.

A little later he spent a winter living alone in the section where the Brooks ranch now is, trapping beaver and killing elk and other game. In the spring he went to Chicago with his furs.

There he told his brother John of what a wonderful country Wyoming was destined to be, and the brother advanced money to make a start. John Brooks was then a travelling salesman on the road for a dry goods jobbing Boston house.

Bryant went back to Wyoming and under the homestead act settled on 160 acres of government land. The first purchase of cattle was 88 heifers. The future governor built a log cabin, and grew up with the country amazingly fast. The cabin is well preserved on the ranch. Now, as a portion of the assets of half a million dollars, the Brooks' ranch has one of the finest ranch houses in the state, artificially lighted with gas, and thoroughly equipped in every way.

Even when roughing it Mr. Brooks read much and added to his store of general information.

He was first elected to the Wyoming legislature in 1892. Four years later he was a delegate to the national Republican convention at St. Louis, and stumped Wyoming for McKinley.

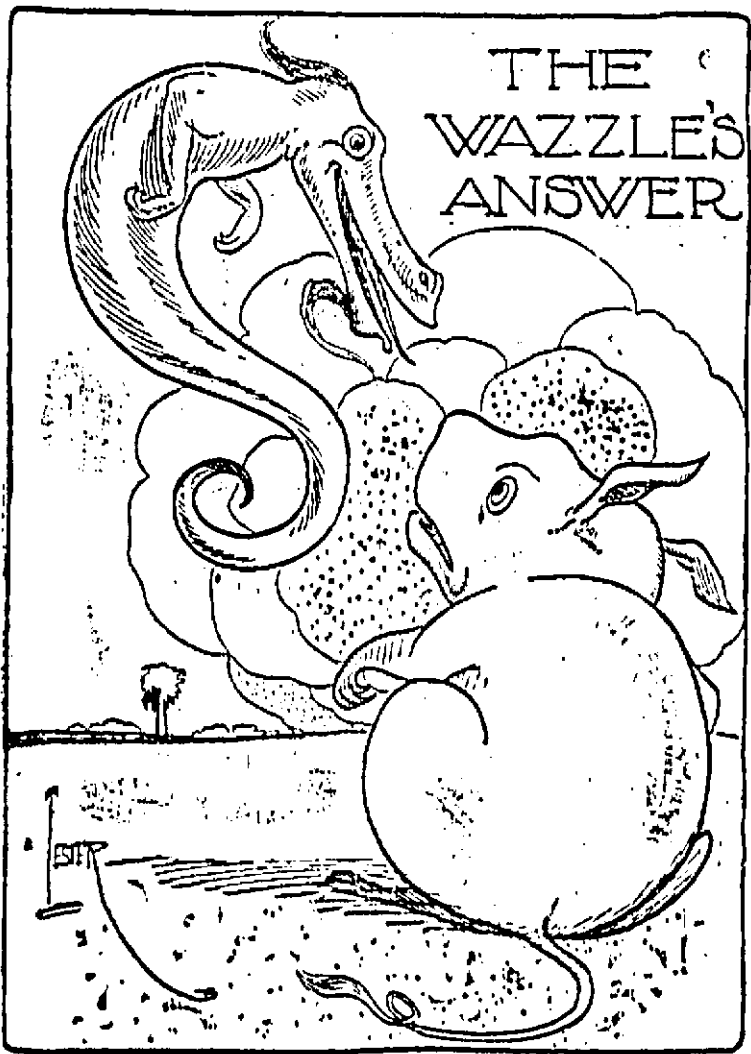

Mr. Brooks was first elected governor in 1904. His administration was very successful. Out in Wyoming the women vote as well as the men, and Gov. Brooks is popular with both sexes. He ran far ahead of his ticket when he was elected the second time.

He is entirely without frills. He does not take kindly to a silk hat and much prefers the black, soft slouch hat. "Don't introduce me as a governor," he says to his friends, "but that sort of thing out." He likes to ride in the smoking cars and get in touch with plain people. "I am one of that kind," he says. He is an enthusiastic Mason and has taken 33 degrees. In Cheyenne there is a fine Masonic temple, in which he takes much pride.

The Thankful Heart.

A thankful heart is not the only greatest virtue but the parent of all other virtues.—Cicero.

JUVENILE JINGLES

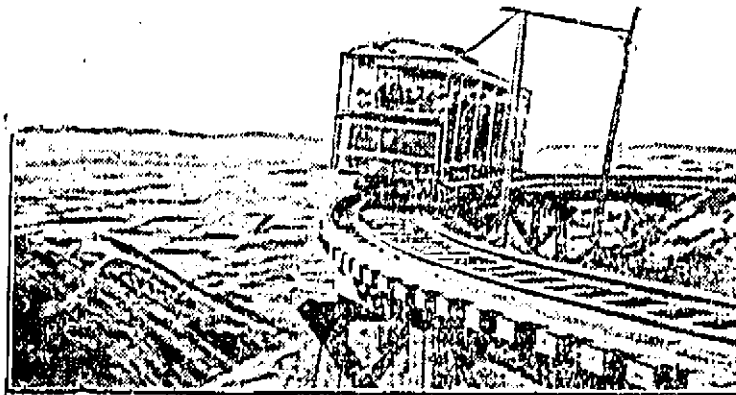

"Friend Wazzle," cried the startled Gump, "What makes you leap so high?"
"Why, this is leap year, don't you know!"
The Wazzle made reply.

"I think, on the whole, I should wish to be twins!"

On lamp posts, don't you see?

Colors and Vegetation.
Red glass lustens vegetation, while blue glass suppresses it. Sensitive plants like the mimosa grow 15 times higher under red glass than under blue.

Playgrounds.
It's a good scheme to use the school yards as public playgrounds. They are convenient for all sections, and the plan will be indorsed by the people. A few portable swings, an awning with a few benches and a sand pit or two will fill the requirements.—Harrisburg Telegraph.

Strangled Attacking Wildcat.
Frank Snellen, living near Shamokin, Pa., when attacked by a wild cat, strangled it with his dinner roll, and then clutched the animal's throat, slowly strangling it to death.

GOOD FIRST SACKERS

Initial Bag Holders Much Sought After by Different Clubs.

HAL CHASE IS A MARVEL

New York American's First Baseman Astonishing the Fans With His Clever Playing—Tim Jordan Improving. Unglaub Is Fast.

Never before has there been such a small number of really high class first basemen. The baseball clubs who have the good ones would never think of parting with them unless peculiar reasons were involved, like the Tenney deal of last winter.

For instance, the Phillies would give a small fortune to get a stronger man for the bag than Courtney and Bransfield, both of whom have shortcomings.

In the National league Fred Tenney and Frank Chance are easily the best.

BOB UNGLAUB, CLEVER FIRST BASEMAN OF THE BOSTON AMERICANS.

Tenney always plays spectacular ball, and he is worth much to a team as a drawing card. In fielding bunts Tenney probably has some advantage over Chance, because the New York man is a left hand thrower.

Chance may not be as flashy as Tenney, but he is doing wonders in a quiet way. The Cub leader has mastered every detail of how to play the bag and get the most good for one's team, and, besides, he is one of the most able tacticians in the country.

A rising first baseman is Tim Jordan of the Brooklyn. Jordan is not in Chance's or Tenney's class as a fielder, but he is improving. Jordan is most valuable because of his hitting ability. A long, free hitter, he is one of the most feared batsmen who step up to the plate.

Another good youngster is Konechey of St. Louis, who is much like Jordan, although not quite so powerful a hitter. Konechey, however, did great work with St. Louis last season, which was his first in the big league. Manager McCloskey thinks that he will be the premier first baseman of the league when he has more experience.

Boston's first baseman is Dan McGinn, he changing places with Fred Tenney. McGinn is a good, cautious man, who has filled the place acceptably for ten years or more. Pittsburgh's first baseman is Swann, an ordinary, and Cincinnati has Manager Ganzel for the place. The latter is a good hitter, but very slow on foot.

In the American league Hal Chase is the most conspicuous. Chase is a wonderful player, who does more astonishing things around the sack than any other player in the country. Tenney's work with the Giants is certain to cause endless discussions about the respective ability of the pair.

Harry Davis of the Athletics makes more long hits than any other first baseman in America. Davis is like-wise a reliable fielder who is good at catching low balls and speedy getting at fouls.

The Boston American's first baseman is Bob Unglaub, who has developed much in the last few years. Unglaub is fast on his feet and, in addition, is a smashing batsman. Chicago has an excellent man in Jiggs Donohue, who is strong in all departments. St. Louis has had to cling to old Tom Jones because young Brown, who was purchased last winter, did not make good.

The Cubs emphasize the scarcity of first basemen, for Jones is playing with St. Louis today. Detroit has a good man in Rossman, who showed particularly good form in the world series. Starnell, a man of experience, plays the sack for Cleveland, and Freeman, a new American league entrant, holds the place down for Washington.

Whooping Cough at Ninety.

Whooping cough is generally regarded as an infantile disease, but in the Devonshire (Eng.) village of Upottery,

although no children are affected, quite a number of elderly villagers have been attacked by the ailment. The latest victim is over 90 years of age.

GARRY HEHRMANN OPTIMISTIC

Cincinnati Club's President Says His Team Will Land in First Division. "I believe with Manager Ganzel that the Cincinnati Reds will go east early in June in the first division.

"The team is playing splendid ball now despite its handicap of comparatively little spring practice.

"There ought to be gradual and natural improvement during the next three weeks, with a sufficient number of victories to place the team on the sunny side of the 500 mark."

This is the optimistic view which President Herrmann takes of the chances of the Reds to give their followers a run for their money in the earlier part of the present campaign.

"We will have the eastern teams for our opponents for nearly three weeks, and it is at the expense of the Atlantic coast section that we hope to get among the first four," continued Mr. Herrmann.

"I have been watching the work of the eastern teams closely ever since the season opened, and I have failed to see where any one team has been doing anything out of the ordinary. With the New York's mostly Mathewson, Boston has been improved by the addition of Howerton, but the general work of the pitchers does not appear to be more effective than last season.

"The Philadelphia have secured a bad start for a team that is so highly touted, and their opportunities for improving in their work while they are on the road will be extremely limited. Brooklyn will miss Strickland and Alperman and does not strike me as being particularly strong in the outfield.

"Altogether the prospects for the Reds doing some climbing between now and the 1st of June seem to me to be exceedingly bright."

MAY CHANGE SCORING RULE.

Rulemakers Said to Favor Giving Hit When Ground Ball is Fumbled.

In a quiet way the rulemakers of the big baseball leagues are getting the opinions of the players on the proposed amendment to the section regarding the scoring of errors. If the change is made next winter, as it seems likely to be, errors will only be charged for unfilled fly balls, muffed thrown balls and wild throws that advance one or more runners.

In case of fumbled balls the batters will be given a hit in all cases.

Although many players urgently advocate the innovation, the adoption of the proposed amendment would be the most unpopular move the rulemakers could make, for it would put the slothful and slovenly man on a par with the energetic and athletic player. Because two fans do not agree as to whether a fumbled grounder is a hit or an error is no indication that the play will not be correctly recorded by the experienced men in the scorer's box.

The handling of ugly bounders is an art acquired only by long years of patient work. It would be a manifest injustice to the marvelous fielders of today—the Wagners, the Devills, the Dowdins and the Lajoies—to match their work, as this no-error-on-fumbled-grounders rule would do, with the mediocre players who are too indolent and too indifferent to acquire the wonderful knack of going after the elusive grounder in the right way.

WATCH JOHNNY EVERS.

Chicago National's Second Baseman Fielding and Batting at Fast Clip.

Little Johnny Evers isn't satisfied with merely covering the second baseman's territory in brilliant style, but insists in addition on banging the ball all over the diamond, thereby annexing an imposing batting record.

Evers is now the leading batsman and base purloiner of the Murphy suds. This means a great deal when one con-

JOHNNY EVERS, THE CHICAGO NATIONAL'S BRILLIANT SECOND BASEMAN.

siders that he has to compete with such trusty sphere smudgers and base stealers as Steinfield, Sheekard, Chance, Kling, Stagle and Schultz.

No ball player in the game today works harder than this little bundle of nerves and muscles when a battle is on. He loves to win and fights to the bitter end before he will acknowledge defeat.

His individual playing materially added his team in winning the world's championship last fall.

NO LACK OF JOCKEYS.

Plenty of Good Riding Material in Sight This Year.

STARS MAY BE DEVELOPED.

Many Fortunes Are Won, Spent and Lost on the Little Horse Pilots Each Season—McCarthy's Clever Work in the Saddle.

A lot of money is won and lost on jockeys in the course of a racing year, and fabulous sums are paid for their services. These miles of legs are an important part of the fascinating thrills of the sport. Each season sees some new stars developed and the old stars dimmed in comparison.

Probably not since the days of Tod Sloan has the public seen a more consistent rider than Walter Miller. This youngster has rolled on the top wave of success for the past three seasons, much longer than the usual period.

Other riders of the past have, as a rule, had but one big year of success, only to drop back among the ordinary. O'Neill, O'Connor, Leno, Hildebrand, Redfern, Piller, Radtke and others might be cited as instances. They either became too tall, too heavy or sadly lost their skill. Walter Miller has retained his rare ability and even this year has ridden successfully on the coast track.

The season promises to be Joe Notter's year of top racing success. Notter is riding the Evans horses, and this alone should mean success. He was far and away the superior of any boy at New Orleans. Considering the further paid by Mr. Keene for first call on his services and the usual fees for outside mounts, Notter should earn something like a presidential salary this year.

The public just now is interested in the new boys, the development of the winter's racing, among whom is such promising material as Joe McCarthy, Dalton McCarthy and Little Fairbrother, who headed the list of riders at the Tampa meeting and who rode with fair success at Aqueduct, and Shilling, who did well on the California tracks. Just which of these youngsters will turn out best remains to be seen. Of course good horses make good riders, as the saying goes, and one or another of them may be favored by the best mounts.

It takes a good rider to bring the best horse home first under ordinary conditions, but a boy who can score on a second rate mount must be credited with some extraordinary cleverness. Such was the case with Joe McCarthy at the recent Aqueduct meeting. He won many a good race when it was plain that he didn't have the best horse.

LUCY LYNE, THE AMERICAN JOCKEY NOW RIDING AROUND WITH MAJORITY HUCKS, under him, McCarthy, like Miller and Sloan, is a post rider. Nine times out of ten he will get his mount away flying. He is alert at the barrier and a thinker. He uses his head in a race.

Dalton McCarthy, another promising lad, under contract to Colonel Mackay, was the wonder of the early days of the Aqueduct meeting after having ridden 200 winners on the Canadian circuit. Three times this season he has rode four winners in a day.

Fairbrother is another youngster of whom much may be expected. This lad's long suit is at finishing. He is not very big, but he seems able to hold a horse together in the style on a stretch drive. He has won out in many a hard-fought race against more experienced riders. Given half a chance, this boy will certainly make good.

In Bergen, the little son of the late Jockey Marty Bergen, Joe Marrone believes he has a corner. Many experts agree with Marrone too. Bergen has won some good races and with experience is sure to improve. The youngster can ride at eighty-nine pounds.

Chief Archie Zimmer, the trainer who developed Grover Cleveland Fuller, has another boy in Steward Flynn who may turn out another Fuller. Of course, like all youngsters, he must be given a chance.

Musgrave has been seen on the New York tracks before this season. He rode on the California circuit last winter and has improved wonderfully. Colonel Chinn, for whom he rides, thinks he has the equal of any boy now before the public in Musgrave. Musgrave won the Carter handicap on Jack Atkins.

Killed by a Batted Ball.
Pittsburgh, Pa., May 22.—In the midst of an exciting game of baseball in Hazelwood Thursday Ralph C. Barr, aged 11, one of the players, was struck over the heart by a hard hit line drive and died almost immediately.

NEW HADLEY WILL BE FOUND.
In It Boston Recluse Leaves \$10,000 to President Roosevelt.

Boston, May 22.—Upon the authenticity of a new will and two codicils, which have just been discovered and which provides for a bequest of \$10,000 to President Roosevelt, depends the distribution of the \$500,000 estate left by Benjamin Hadley, an eccentric recluse who was found dead in his home in Somerville last December. If these new documents are genuine, all of the estate, with the exception of the \$10,000 bequest to the president, will be distributed among the English relatives of the testator.

Red River Levee Breaks.
New Orleans, La., May 22.—The levee in Red River levee District No. 1 broke early Thursday morning, flooding the entire bottom south of the Cotton Belt railway. The break was unexpected and those in the bottom were at the mercy of the flood. Live stock of all kinds perished and several negroes are reported to have been drowned.

New Fast Train to Seattle.
Omaha, May 22.—The Burlington road will inaugurate May 31 a fast limited train service between Chicago, Omaha, Kansas City, St. Louis and Seattle and other northwest points, which will reduce the present running time 12 hours, arriving in Seattle in the morning instead of the following evening, as at present.

Druggists Mustn't Sell Liquors.
Rockford, Ill., May 22.—Owners of drug stores in Rockford have been ordered to stop the sale of intoxicating liquors, either by prescription or otherwise. This comes as a result of the recent local option law and subsequent failure of the council to provide an ordinance regulating the sale of liquors by druggists.

Descent.
No circumstances can ever make or mar the unfolding of the spiritual life in man. Spiritually does not depend upon the environment; it depends upon the attitude of the man toward life.

Defense That Failed.
"I was not," said a lady at a Manchester police court, "using bad language. I was too well dressed and respectable." The bench, which seems not to understand the implied argument of the moral effect of good clothing upon the wearer, imposed a fine.—London Daily News.

Her Ideal.
The ideal man, as woman considers him, is one who can trail around for half a day and not get weary while she stops to price things.

For Threatened Breakdown. When a breakdown is threatened, remember that there is no preventive like exercise and rest. A few minutes of each daily will outweigh a dozen nostrums. Why? New Elk Combined Riding and Walking Cultivator

No pains have been spared to make the New Elk the Banner Cultivator of its Class

In our many years of experience we have never made a combined riding and walking cultivator that has met with more universal approval than the New Elk. This cultivator with its recent improvements is so nearly perfect that it would be difficult to think of any criticism or suggest any further improvement.

In the New Elk only those grades of material are used which are absolutely the best for the purpose, combined in a construction which only expert knowledge of the strength and efficiency of material can suggest.

SIDE FRAME BARS.
Channel steel side frame bars, light, but strong, attached by malleable clamps to the steel pipe axle bar.

HORIZONTAL SWING.
Horizontal swinging rigs are made possible by the location of the spools over which the chains pass, always at a point directly over the couplings.

SPACING OF THE RIGS.
Variation in spacing of the rigs is accomplished by loosening the coupling clamps and moving the couplings on their spindle boxes.

ADJUSTABLE COUPLINGS.
Our patent adjustable couplings are conceded to be the best rig couplings ever applied to a cultivator.

LIFTING LEVERS.
The lifting levers work in ratchets with very short spacing. With these short spaced ratchets the depth of the shovels can be perfectly regulated, as little as a half inch at a time if desired.

HIGH WHEELS; CLOSED BOXES.
High wheels with broad, concave tires make light draft and prevent settling into the soil, and they are equipped with OIL-TIGHT, DUST-PROOF, LONG DISTANCE WHEEL BOXES.

WALKING CULTIVATOR.
A perfect walking cultivator is secured by throwing the wheels forward and turning up the seat, the balance frame feature making the cultivator equally satisfactory as rider or walker.

We also handle the Planet Jr. Hand Cultivator and the Two row beet cultivator. Get our price and call and see these cultivators when in Janesville. We save you money.

Curtain Department Doings

The present sale offers an exceptional opportunity to buy curtains at a great reduction from regular prices. EVERY CURTAIN in our stock will be REDUCED for this sale. INCLUDED are all LACE CURTAINS, MUSLIN CURTAINS, MADRAS CURTAINS and PORTIERES and ROPE CURTAINS.

AN IMMENSE COLLECTION, thousands of pairs bought especially for spring selling. You positively

cannot afford to miss such a chance to supply your curtain needs.

GREAT SPECIAL PURCHASE OF NOTTINGHAM AND CABLE NET CURTAINS, ABOUT 800 PAIRS. We bought these very much under regular prices and we mention a few lots to give you an idea of the great saving.

At our regular prices we have sold these curtains

against the strongest competition. The cut prices should make short work of them.

ODD LOTS of curtains consisting of ONE, ONE AND ONE-HALF and TWO PAIRS which we are anxious to close and will offer them at PRICES that will MAKE them go. There are some excellent numbers among these.

SHORT ENDS of CURTAIN MUSLINS and CURTAIN NETS. We have an accumulation of these in the drapery section and will put them all in at ONE-HALF PRICE.

WE cannot make much more than a general mention in this announcement, but the bargains we offer are so exceptional that people will not be slow in finding it out. And the earlier one calls the better selection, although it will take lively selling to deplete such a stock as we commence the sale with. The mere announcement that the Big Store intends to make a special sale causes people to sit up and take notice. The reason is plain; because people have learned that the Big Store sales mean something unusual and that all statements will be carried out. Any orders sent by mail by out of town customers will be given special attention and orders will be promptly filled. Money cheerfully refunded if not satisfactory. **The Sale Will Start Saturday Morning at 8 O'clock, Continuing Until June 6th.**

BUILDINGS BILL MAY BE VETOED

PRESIDENT ASKS CORTELYOU
FOR REPORT AND ADVICE.

IS A CLUB OVER CONGRESS

Obvious Connection Between This Action and Chief Executive's Desire to Force Certain Legislation.

Washington, May 22.—President Roosevelt already has "taken notice" of the \$32,000,000 public building bill, although that measure is still in conference between the two houses of congress. He asked Secretary Cortelyou Thursday to prepare a report on the measure to guide him in determining whether to sign or veto it.

Mr. Cortelyou is asked to include in his report, first, whether the condition of the public funds justify so large an expenditure for public buildings at this time; second, the amount of future expenditures which will be made necessary to complete the new projects authorized in the measure, and third, an opinion based on the expert judgment of the supervising architect of the treasury as to the necessity for each of the projects provided for.

That there is a connection between the president's desire to be fully informed as to the public building bill and his desire to have passed an anti-injunction bill, and also his desire to have bills passed appropriating for ocean mail steamers, is declared to be most obvious. It is conceded that no measure passed at this session is more toothsome to members of both houses than the public building bill. The prospect of having this bill vetoed would cause emphatic concern and alarm.

Plan for Monetary Commission.
The proceedings of the senate Thursday, as is usual towards the close of a session, covered a multitude of subjects, including the probable final announcement on the currency question. Announcing that the conference of the senate and house on the currency bill would be unable to agree if congress is to adjourn at an early day, Senator Aldrich reported from the committee on finance a joint resolution creating a national monetary commission to be composed of nine senators and nine representatives to investigate all matters concerning the banking and currency system of the country and the resolution was passed without debate. Mr. Aldrich stated that it was proposed to have this commission begin its work at an early day.

The senate passed the general deficiency and military academy appropriation bills, the last of the great appropriation bills. A bill regulating child labor in the District of Columbia and the territories was passed.

Busy Day for the House.
The house spent another busy day. Following a protracted debate, the conference report on the District of Columbia traction bill, permitting the laying of street car tracks to the Union station, was adopted with the provision for universal transfers eliminated; the conference report on the agricultural appropriation bill was agreed to; the senate amendments, which increased by \$12,000,000 the public building bill appropriation were disagreed to and conference asked and bills were passed as follows: Establishing in the interior department a bureau of mines and providing for the cooperation of states for the conservation of the forests and waters of the White and Southern Appalachian mountains, and the appointment of a national forest commission.

No Anti-Injunction Bill.
No bill to modify the power of the federal courts in the exercise of injunctions will be passed at this session of congress. It was decided Thursday night at a conference of the Republican members of the house that to enact such a measure would be unwise. The conference was in session from eight o'clock until 11:30.

PIERCE TORNADO IN IOWA.
Buildings Destroyed and Stock Killed in Albia and Vicinity.
Albia, Ia., May 22.—A tornado, originating nine miles west of Albia, Thursday came down the valley with the speed of an express train and all the buildings in its path were blown away and stock was killed. The path was about a quarter of a mile wide. In Albia the wind lifted a corn crib and hurled it several rods against J. M. Taylor, 73 years old, who was feeding chickens, crushing him to death. The Grant school was damaged and the pupils had a narrow escape from flying bricks and glass. Several persons were cut by the flying glass. Broken trees did great damage to stock.

Concordia, Kan., May 22.—Word received here says that Mrs. Fred Becker was badly hurt and her two children killed near Lynn, in Washington county, Wednesday night, when their home was demolished by a storm.

Officers of Illinois Grand Army.
Quincy, Ill., May 22.—The Grand Army encampment, department of Illinois, closed its session with the election of officers Thursday afternoon.

They are: Commander, Joseph Rosenbaum, Chicago; senior vice-commander, Orrin Wilkinson, Princeton; junior vice-commander, J. H. West, Elgin; musical director, Alfred L. Colas, Chicago.

Has Turned Out Many Bells.
There have been over 50,000 church bells cast in Troy, N. Y., since the first foundry was built there in 1825.

STRIKERS USE DYNAMITE

SEVERAL STREET CARS IN CLEVELAND BLOWN UP.

Two Persons Seriously Injured and Others Slightly Hurt — Two Arbitrators Are Chosen.

Cleveland, O., May 22.—Two people were seriously injured and eight others shocked or slightly hurt shortly before midnight when a Euclid avenue car eastward bound was blown up by a dynamite bomb at One Hundredth and Sixteenth street.

Harvey E. Mahler, a barber, had a leg broken and suffered internal injuries. A woman who refused her name, also is said to have sustained a fractured leg. She was removed to her home in an automobile.

The car had on board persons returning from the theaters. At the point where it was wrecked there were but ten passengers left. The explosion was terrific. It lifted the car from the rails and smashed the gearing and woodwork. Splinters and glass flew in all directions.

A squad of police stationed near by came to the rescue of the injured. The panic-stricken passengers who were able fled the scene. No arrests were made.

At almost the same moment a car on the St. Clair street line was derailed near Down street. One wheel was blown off, but no one was injured.

Reports come from other sections stating that similar outrages, without serious result, were attempted.

There is left only the selection of the third arbitrator to bring about a cessation of the street railway strike. Two arbitrators were selected Thursday to consider the bill of arbitration which is said to have been agreed upon between the strikers and the Municipal Traction company. They are Prof. Elroy M. Avery, the author, for the men, and Attorney Arthur A. Stearns for the company.

MUST ADMIT NEGRO CHILDREN.

Writ of Mandamus Against Alton Officials in School Case.

Alton, Ill., May 22.—The Illinois supreme court Thursday issued a writ of mandamus against the mayor and members of the city council requiring the city officials to permit Ambrose and Minnie Hibb, negroes, to attend the same school in which white pupils are taught. The litigation in the case was commenced 12 years ago by Scott Hibb, father of Ambrose and Minnie. The children are now 20 and 18 years old respectively and have outgrown graded school years. Only four members of the city council then in office are still serving.

The writ specifically applies to the fifth children, and they say they will take advantage of the provisions and attend high school. They have carried on their studies under private tutors during the procedure of the case.

Typos Re-Elect Some Officers.

Indianapolis, Ind., May 22.—At International Typographical union headquarters in this city it was given out late Thursday night that in all probability President James M. Lynch, Vice-President Hayes and Secretary-Treasurer J. W. Bramwood have been re-elected. This information is based on over 100 telegrams received at national headquarters giving the vote of the different locals.

Fourteen Injured in a Fire.
Chicago, May 22.—Fourteen men were seriously burned and maimed, two are missing, and a score had miraculous escapes from death Thursday afternoon in a fire which destroyed the three-story building occupied by the J. C. Wintermeyer Box Manufacturing company and the Success Ornamental Glass company at Twenty-first place and Throop street. The loss is \$125,000.

Illinois Elks Close Convention.
Peoria, Ill., May 22.—The Elks' fifth annual state convention came to a close Thursday by the election of officers. In the afternoon a monster parade took place and in the evening the meeting closed with a banquet. Andrew Olson of Moline was chosen president.

RUEF JURY DISAGREES.

Mistrial in Case Against Former Boss of San Francisco.

San Francisco, May 22.—After being out for 43½ hours, the jury in the trial of Abraham Ruef, the former political boss of San Francisco, and central figure in the bribery-graft prosecution, against whom wholesale indictments were returned, failed to agree upon a verdict and was discharged at five o'clock Thursday afternoon by Judge Maurice T. Dooley.

The specific charge against Ruef in the trial just closed was the offer of a bribe of \$1,000 to former Supervisor Jennings Phillips to influence his vote favorably upon an electric railroad franchise applied for by the Parkside Realty company. The jury stood six to six upon the first ballot and remained so without a change during the 13 ballots taken. It was learned that the question upon which the jury split was the credibility of the witnesses. There still remain 111 indictments pending against Ruef.

Kills New York Bucket Shops.
Albany, N. Y., May 22.—After September 1 it will be a felony to conduct a bucket shop in this state. Gov. Hughes signed without comment Senator Cassidy's bill amending the penal code to that effect.

HARD TO CONVINCE.
Painters are sometimes hard to convince when it comes to the question of the right paint to use; they are inclined to think there's nothing so good as lead and oil. There's something better; and painters who find it out make money by the knowledge. Chris Kiefer, leading painter of Morton, Ill., used Devco lead-and-zinc paint exclusively; but even with his experience the covering capacity fooled him. He ordered 8 gallons for his own house and had three gallons left. Good thing for painters; for themselves and their customers.

OPPORTUNITY TO
BECOME WEALTHY

MAGIC OR TALISMANIC STONE
DISCOVERED IN TEXAS.

THE CHANCE OF LIFETIME

Pay a Small Trifle Like Fifteen Mil-
lion and Become a
Billionaire.

Ever since the Texas frontiersmen
in 1846 threw off the yoke of the
Mexicans, David Crockett fell beneath
the bullets at the massacre of the
Alamo, and old Pecos-legged Santa Ana
made haste to hurry his mule to-
ward the Mexican boundary. Texas has
been a country of wonderful possibil-
ities. With an area of magnitude
greater than any half dozen states it
has been an empire of itself. Cattle,
oil, crops of all description, are to be
found within its borders in profusion.
It is so big that it has never been
crowded with settlers and all sorts
of wonderful discoveries are being
made daily that leak out to the public
through the medium of the press sheet.
Recently the Valentine School of
Telegraphy received a letter of vast
importance from a man living near
New Braunfels. So weighty was its
purport that they considered the mat-
ter gravely and then decided that
alone they were unable to undertake
the business offered and sent the let-
ter over to the Gazette in order that
the matter might be given publicity
due it. The letter is not only unique but
it is stupendous—fifteen million dol-
lars for a stone, a magic talismanic
stone, that will make its owner a bil-
lionaire many times over and lengthen
his life beyond the allotted span of
three score years and ten. It was
written according to figures in the
upper left-hand corner at 10:30 and 3
minutes. It says:

"The Magic or Talismanic Stone."
"There is no other stone on earth
like this, and only known to the per-
son now in its possession, the person
who will be lucky to become the next
possessor will be richer than any bil-
lionaire. Would a Millionaire sell his
life or his life for ten million dollars?
This stone he or she can get for fif-
teen million dollars. It will lengthen
his or her life, give peace to his or
her mind and a great many things
valuable and enjoyable to life. It is
no doubt it will soon be bought and
the person who buys it will not de-
part with it before he or she is old—
and who may not have the chance any
more will be stated here that no other
person can see the stone—than the
purchaser and only then when the
\$15,000,000 have been paid. Party find-
ing person to buy the stone and pay-
ing \$15,000,000 will get \$10,000,000
from the fifteen million when paid.
"AUGUST KLINGENSMANN."
"New Braunfels, Texas, R. F. D. 5."
"Box 18."

Then follows two other offers: One,
that a person paying a million can
have the stone for one year; and any-
one paying an equal sum can turn the
stone over once, which will bring him
much luck. Mr. Klingensmann is also
possessor or inventor of a mysterious
writing which can be used by all peo-
ple. It is very simple, but affords
thousands of dollars in profit for the
interpretation of the key. He also of-
fers a limited number of copies for
sale that were carried by persons in
the four-day San Francisco fair which
are luck charms and which he will
sell for \$15,000 each. His sums re-
quested are so modest and his wares
offered for sale so useful without
doubt some Janesville resident will
promptly forward the millions so that
he may become a billionaire and build
the interurban to Madison, deepen the
Rock river all the way from Janesville
to the Mississippi, build the Park and
Pleasure drives planned about the city
and otherwise improve his native
land. It is a good deal of offer of mil-
lions upon millions and it is not sur-
prising for the Janesville, so the public
is given the chance to accept it.

feature of the June Woman's Home
Companion. The five hundred pho-
tographs were taken in almost every
state in the Union, at all periods of
Roosevelt's public career, and show
his wonderful versatility and energy.
In the June Companion appear the
first chapters of Harvey J. O'Higgins
great story, "A Grand Army Man,"
based on Helms's famous play of the
same name, in which David Warfield
starred all last winter. Other fiction
in this delightful summer magazine is
by Elizabeth Stuart Phelps, Zona
Gale, Charlotte Perkins Gilman, Tom-
pkins Bailey and Clinton Danford.
Kellogg Durand, who of late has
spent much time in Russia, tells the
dramatic and thrilling story of one of
the bravest girls of the Russian Revolu-
tion. Margaret E. Sangster writes
on the American woman as a social
engineer. Dr. Edward Everett Hale
devotes his monthly page to some
working rules of life. Grace Margaret
Gould, the fashion expert, gives many
practical suggestions for summer
dressing. Sam Lloyd's Own Puzzle
Page is a mine of interest for the
puzzle lover.

WOODMEN TO OBSERVE
THEIR MEMORIAL DAY

Afton Woodmen to Attend the Baptist
Church on First Sunday in
June.

Afton, May 22.—Woodmen mem-
orial day, which is the first Sunday in
June, will be observed by the local
Woodmen and Royal Neighbor camps
this year, each camp having voted to
accept the invitation of Pastor Coon-
radt of the Baptist church to attend
morning services at his church. Sun-
day, June 7th, at which time he will
deliver a sermon appropriate to the
occasion. As each camp is expected
to attend in a body, the members of
each are requested to meet at the hall
at 10 o'clock, on that morning,
in order that all may secure badges
and march together to the church.
Mr. Coonradt himself is a member of
the local Woodman camp and takes a
lively interest in the organization. All
members of both camps are urged to
remember this invitation and to plan
to be present at this service in mem-
ory of deceased members.

Memorial day services will be held
as usual this year, by the pupils of
the Afton state graded school, and
the children in both departments are
now busy with various numbers on
the program to be presented. The ex-
ercises will be held, Wednesday, May
28th, and Saturday evening, May 30th,
and will include songs, recitations, and
drama by the pupils and an address by
some well known Rock county man.
The public is cordially invited to at-
tend.

Two new social members were vot-
ed upon, accepted and obligated, at
the regular meeting of Solid Rock
Camp No. 1127, R. N. A., held last
Thursday afternoon. The new mem-
bers are Mrs. Elmer Brinkman and
Mrs. G. H. Otis and their joining
brings the membership of the local
camp up to 17. At the conclusion of
routine business, the circle of the
camp, Mrs. David Thorne served lunch
and cake to those present. Mrs.
Thorne returned last Sunday from
Chicago, where she and several of the
previous week and spent the week-
end delegates to the supreme camp of
the Royal Neighbors, and where she
had labored earnestly in behalf of Mrs.
Eva Childs of Hanover, Wisconsin's
able member of the supreme board of
managers and candidate for re-elec-
tion. She had the satisfaction of see-
ing Mrs. Childs retained on the board
for the ensuing term of three years,
in spite of the strenuous and persis-
tent opposition, and is happy thereat.

The next regular meeting of the
Modern Woodmen will be held on
Thursday evening of next week, in-
stead of Saturday evening as usual,
the change being made on account of
the Memorial day exercises, to be held
at the local Saturday evening. The
foremost team will drill at the con-
clusion of the meeting.

The following superintendents of
highways have been appointed by the
town board for the ensuing three
years: 1. T. J. Oakley; 2. Owen Gow-
er; 3. L. W. Bowles; 4. J. E. Water-
man; 5. C. J. Kilmer; 6. Patrick Tra-
cott; 7. C. S. Malley; 8. Arthur Wood-
stock; 9. P. E. Arnold; 10. Fritz Hol-
zapfel; 11. C. P. Penath; 12. H. Maur-
ice Reed; 13. Alex. Hunsfield; 14. John W.
Carroll; 15. John N. Noss; 16. Hugh
O'Leary. In districts numbers 7 and
12 the present superintendents, J. O.
Conroy and Joseph O'Leary, respec-
tively, hold over for another year. The
question of good roads is being em-
phasized more and more each year
and the town board took time to con-
sider these appointments before final
action was taken.

A crowd of 750 arrived from
Janesville Thursday for the new Tank
dwellling and carpenters began work
thereon Thursday afternoon.

Wm. Dwyer is busy getting his
saw mill in good running order and
has already converted some of the big
logs he had on hand into lumber.

A fund is now being raised to help
defray the expense incurred in the re-
modeling of the Baptist church inter-
ior. The church treasurer, W. J. Mil-
lor, has the matter in charge and
those willing to assist should give him
their names and the amount they de-
sire to contribute. The changes made
in the church entrance have long been
needed here and the expense will not
be heavy if borne by the many.

E. F. Luckfield, second truck oper-
ator at the C. & N. W. passenger
station here, left his car at his home
in Hanover, and Operator Joyce of
Janesville is taking his place.

Mrs. C. B. Palmer of Milton and
Mrs. G. W. Hunsinger of Milton Jun-
ction visited the former's daughter,
Miss Hazel L. Palmer, principal of the
state graded school here, last Thurs-
day.

The Ladies Aid society met with
Mrs. H. G. White last Wednesday af-
ternoon, to sew for the society. The
next meeting will be held with Mrs.
John Brinkman in two weeks.

Mrs. Harriet Robb of Durand, Ill.,
is visiting her son George and family
here.

to meet at G. A. R. hall at 9:30 a. m.
Sunday to attend services at the Mil-
ton Junction M. E. church and at 7
p. m. to attend services at the M. E.
church in this village. Memorial day
services will be held in this village on
Friday, June 20, at 10 a. m. and at
Milton Junction at 2:30 p. m. The
schools have been invited to partici-
pate in the exercises.

The following is the pro-
gram of commencement week
exercises of the high school:

W. V. I. club meets with Mrs. Will
J. Davis Monday afternoon.
R. H. Wells attended a bankers'
meeting at Racine this week.
The Whitewater high school ball
team won from the local high Tues-
day afternoon by a score of 3 to 1.
The same score the Milton lads de-
fected them by two weeks ago at
Whitewater. Charles for Milton pitched
a masterly game, striking out
twelve men and allowing only three
hits. He was ably supported by Whit-
taker and Penner, but the rest of the
fielded badly and decidedly off day.
The game being lost on errors alone. The
"silly work" of Milton showed an im-
provement over their previous
games. Now that fair weather is
promised, the home team are planning
to make every effort to eradicate their
weak holding. Melahn, Whitewater's
"Southpaw" struck out nine men, but
allowed six hits.

The locals have played seven games
thus far this year and all have been
one-sided scores.
Score by innings:
Milton 0 0 0 1 0 0 0 0 1
Whitewater ... 0 0 0 1 0 0 0 2 x—3
Batteries—Clarke and Whitell for
Milton, Melahn and Cox for White-
water.

Umpires, Whitford and Williams.
Jno. B. Warfield and wife, of Rock-
ford, Ill., were the guests of Mr. and
Mrs. W. H. Weaver this week.

The concert given Tuesday evening
by the Pleasant Band was deserving
of the patronage that it received.
The program consisted of selections
by the full band, cornet duet with
band accompaniment, Director Har-
dick and J. W. Johnson; baritone
solo with band, L. H. North; readings
by Mrs. H. C. Stillman, and selections
by ladies' quartette under the direc-
tion of Miss Ethelyn Davis of the
school of music. Many of the band
boys are devoting their time to this
work at considerable pecuniary suc-
cess, and the people should encour-
age them by liberal patronage.—"R."

this vicinity Tuesday.

Messrs. Frank Hor, John, Adolph
and Frank Snyder were business cal-
lers at Andrew Masterson's last Mon-
day.

William Langer and sister Mary
were Sunday visitors at F. Snyder's.
While Louis Snyder was at the
cemetery Monday morning his horse
became frightened and ran away.
Nothing serious resulted.

Mr. William Kennedy and family
visited at John Muller's Sunday.

Mr. Frank Hor and daughter Mary
spent Sunday at W. A. Hamauska's at
Milton.

Willing to Be Sociable.

A little three-year-old, who is very
precoocious, was lying in her bed being
put to sleep in the dark, with her father
sitting beside her waiting for her to
go to sleep, when this one-sided con-
versation took place: "Hello, dada."
No answer. "How do do, dada?" No
answer. "How you feel, dada?" Same
answer. After a few moments' silence:
"Glad to see you, dada."

Tip to Linen Buyers.

In buying table linen be careful to
get a piece that is not full of knots
as it is very apt to wear into holes
at those places.

The Secret of Poetry.

After all, if I follow in to write po-
etry, the secret is to get in touch with
humanity; know what the people are
thinking about; retire to the very
deepest sources of life—back, back,
all there is no farther point to retire
to.—The Century.

Arthur J. Harris' handsome new
Machon touring car, equipped with a
full h. p. engine and capable of de-
veloping 70 h. p. in emergencies, with
a double chain drive and accommoda-
tions for seven passengers, arrived
here last evening after a phenomenal
run from Chicago. Aboard the big
chariot were the owner, Lewis Ehr-
linger, D. C. Jeffrie, Norman L. Carls,
Frank Jackson, and an expert from
the Chicago headquarters of the man-
ufacturers. Starting from the metrop-
olis at 3 p. m. and traveling over
muddy roads which in places involved
the rear wheels nearly to the hubs,
the party made a stop of one hour for
supper at Geneva and arrived here at
eight o'clock last evening. It is the
first Machon machine to be owned
in Rock county. Rollin Lewis brought
in from Chicago last evening the new
six-cylinder Ford roadster which has
been purchased by Stow Loveloy.
E. A. Kommerer and Dr. R. W. Ed-
wards brought two Jackson cars
from Chicago last evening, one a tour-
ing car, and the other a roadster for
Wm. Ehrlinger of Hanover.

SUGAR CO. TO PAY
DAMAGES OF \$950

To Parents of Late Rudolph Buerger,
Who Was Killed by Explosion of
Evaporator on Sept. 29.

In the damage action of August
Buerger, administrator of the estate of
the late Rudolph Buerger, who was
killed by the explosion of one of the
evaporators at the sugar factory on
Sept. 29, 1907, versus the Rock Com-
pany Sugar Co., a settlement on the basis
of \$950 was made just before the
case was to be submitted to the jury
in the circuit court at a late hour
yesterday afternoon. The costs will
also be borne by the defendant com-
pany. From the standpoint of the
plaintiff as well as the defendant the
settlement was an advantageous one,
as recovery could be had only for the
actual monetary loss to the parents.

Sterno's funeral was as friendly as his deathbed. Hecket, his publisher, was the only one who followed the body to its undistinguished grave.

Don't Try Uncertain Recipes
It is entirely unnecessary to experiment with this, and all other recipes. Way would this, money and patience when you can get from your grocer, for 10 cents, a package of "GIBBS' PREPARED"—Lemon, Chocolate or Custard—for making pies that are so good that when you eat one you will want another? This way to please the mob-folk is to give them good pie.

GIBBS LAKE.
Gibbs Lake, May 21.—The baseball season will open at the lake Sunday afternoon with a game between the Evansville and Fort Atkinson. Every one is invited to attend.

Mrs. Kate Kelly, Mrs. O'Neil and son Joseph were pleasant callers at Tom Cassidy's Tuesday evening.

Mr. Stout and sister Gertrude were Sunday visitors with Miss Eva Stewart.

Mrs. Vaughn and daughter Lela of Fulton visited a few days last week with Mrs. Chas. Hilven.

REAR ADMIRAL CHARLES S. SPERRY.

The flag of Rear Admiral Evans has been hauled down from the masthead of the Connecticut. For a few days he will be succeeded in command by Rear Admiral Thomas. When the fleet finally leaves America to complete its tour around the world, the man who will direct its evolutions will be Rear Admiral Charles S. Sperry. By the time the fleet is again in Atlantic waters, Admiral Sperry will be as well known and as beloved in the old world as Admiral Evans is in the new.

Admiral Sperry is regarded as one of the finest strategists and tacticians in the navy, and that is why he has been selected to take charge of the battleships and cruisers for the rest of the journey around the globe. He is an expert in his line, one of the most accomplished officers of the new navy, thoroughly up-to-date in all branches. Moreover, he has spent years about

Human Clods.

It may seem a brutal view to take, but in this twentieth century the man who does not so strengthen his brain and train his hand as to rise above the dead level of the unskilled mass will remain a clod, and until the day of his death will be trodden upon.—Philadelphia North American.

Peculiar Chinese Currency.

Each province in China, also each city and many smaller towns, have a different unit of value, as the unit is supposed to be an ounce (Chinese) of silver, but there is no uniformity as to how many grains constitute this ounce, and the fineness of the silver also varies at each point.

Wax to Keep Stove Clean.

Save all pieces of beeswax. After the day's work is done rub a little wax on top of the stove with cloth. The heat will melt wax and will remove stains and leave the stove bright and clean. Most excellent and simple.

"The REAL AGATHA" BY EDITH HUNTINGTON MASON. PICTURES BY WILL WALTERS FREY CAMPBELL ALEXANDER WILSON.

"No!" he said. "Well, that's because I've something I've been waiting to ask you all day long. It's something very personal, and, of course, I've no right—that is, you won't think so," but I've got to know; it's so hard to believe that you would do it deliberately. Is it true?"

"Lord Wilfred," said the girl, straightening up, "you must speak more clearly if you want me to understand what you have been saying."

"It's this," said Lord Wilfred, facing her abruptly and terribly in earnest. "Someone told me last night that you were a married woman. Is it true?"

"I could not see the face of the secretary, but I could not help perceiving the ring of truth in her voice."

"I'm not married," she said, simply. "I told Mr. Terhune so because I wanted to disabuse him of a false impression he was laboring under. But what is it to you?"

"This," said Wilfred, and he leaned toward her suddenly, as if he were about to grasp her hand, "I've been waiting to ask you all day long. It's something very personal, and, of course, I've no right—that is, you won't think so," but I've got to know; it's so hard to believe that you would do it deliberately. Is it true?"

Kidney Complaints.

Kidney diseases are generally found in persons whose blood is impoverished or impure, and whose nerves have not sufficient power or force to make the kidneys perform their proper functions.

The duty of the kidneys is to filter the blood, and when this fluid is filled with uric acid and malarial poisons they become overburdened with extra work. When the nerves are not strong, they fail to supply the power to do this work; then the kidneys become clogged and disease sets in. Kidney complaints usually commence with cold chills, especially in the back and loins, followed with fever and pain. The pain extends to the bladder, loins and thighs. The urine becomes highly colored or extremely light. It sometimes looks red or blood-like, with a brick dust sediment after standing; or it may be stringy or milky and filled with albumen, the most vital element of the body.

When these conditions are allowed to continue they result in one or more of the following conditions:

Good, Honest Results. Henry Wood, Mineral Ridge, O., says: "I can say that DeBell's Kidney Pills is the best remedy I ever used for rheumatism and kidney troubles. I have tried a good many kinds of medicine before I commenced using DeBell's Kidney Pills, and I could have got down from my chair, but since I commenced using DeBell's Kidney Pills I can sleep better and don't have to get up so often in the night, and I am much better than I was before I commenced taking them."

GOOD BLOOD

NATURE'S PROTECTION AGAINST DISEASE

The preservation of health and prevention against disease in almost entirely dependent upon pure, healthy blood; every organ, tissue, nerve and sinus of the body draws on this vital fluid for nourishment and strength. Poisons, humors and germs from various sources often get into the blood, and then this great life-stream becomes a source of infection and disease. Instead of a nourishing, health-sustaining fluid, heredity is likewise an important factor, regulating the quality of the blood. Some persons are born with tainted blood from diseased ancestry, and Scrofula in one of its numerous forms is sure to crop out some time in life. Not only poisons in the blood are responsible for disease, but when the circulation is run down and becomes poor and weak in quality, then we see the effect in a general bad condition of health, such as weakness, sallow complexion, boils, and various skin eruptions. All blood troubles require a tonic and blood purifier, and none other equals S. S. S. It goes down to the very foundation of the trouble, and removes every particle of the poison or impurity from the blood. And not only does S. S. S. antidote the poisons, humors and germs, but it possesses health-giving, tonic properties, which build up and strengthen weak, impoverished blood, and fortifies the system against disease. S. S. S. permanently cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Eczema, Tetters, and all other skin diseases and disorders. Book on the blood and any medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Miss Lillian Berkley, Who Jilted A Rich Man After He Had Traveled 20,000 Miles In An Endeavor To Win Back Her Former Love.

There is one girl in the United States who will not sacrifice her love on the altar of gold. William Zuck, once poor, now rich, loves Miss Berkley for herself alone and offers her everything if she will return with him to Australia.

Today Zuck returns, broken hearted, to the south seas. "I cannot forget," said Miss Berkley, "that we can never be to each other what we were before."

At the beginning of 1907 Miss Berkley was living in London, Eng., as a companion in a family of the name of Wilson. The family went to Melbourne, Australia, in April of that year, and there Miss Berkley met William Zuck, at that time engaged in the collecting business.

The attraction was mutual and it was only a little while before all the family knew of the love affair. There were long walks in the soft Australian moonlight, and even talk of a date for the wedding.

Then came one of the obstacles which are in the way of true love all the world over. It was over money. Zuck was to have made a certain disposition of \$100. Whatever he did with it, the girl believed he had not done what he should, so when the Wilsons returned to England in January, 1908, Miss Berkley went with them. There was nothing she thought, to detain her in London, but finally came to America and made her home in Wilmington.

The collection agency gave way to prospecting for mines and all morning he awoke to find himself rich.

The first thing he did was to start after the girl. He went to London where it is said he explained the \$100 matter to the entire satisfaction of the Wilson family. From them he secured Miss Berkley's American address and without waiting took ship to New York, and by the fastest train he could get he journeyed to Wilmington.

A Hint to Wives. When a man knows that there is always a watchful eye on him; that if he forgets to be thankful for some service done him, if he is absent-minded if he neglects to kiss his wife good-by, it will be all counted against him—then his spontaneity will die.—Harper's Bazar.

NOTICE TO LAY SIDEWALK

Yawned at Unfortunate Time. Charles Deceat, of Philadelphia, yawned just as a collision of a street car occurred, and a piece of glass went down his throat. Physicians say he may lose his speech.

Exhaustion Overcomes Grief.

There is the great comfort of grief, but the agony by which it works is exhaustion.—Landon.

No other wash materials are at once so pretty and economical as American Printing Company Fabrics. By using them you may have three dresses for the ordinary price of one, without any sacrifice of style or beauty.

Costume of American Printing Company silk foulard pattern in Calcutta (Allee) blue, trimmed with the plain dyed material to match.
Dress of American Printing Company Calcutta (Allee) blue fabric, Princess style, with deep tucked bodice, yoke and bands of white lace.
Gown in American Printing Company Mercerized Gingham style, with black dots on colored plain design. Buttons and trimmings of the Calcutta blue.
Dress of American Printing Company Indigo blue, silk foulard style, with bands and shawl collar in the Calcutta blue or in white pique.
Gown in American Printing Company Mercerized black and white check, with touches of red. Bands of plain dyed materials in black and red.

These costumes are all made from American Printing Company's fabrics, 24 inches wide—the most economical width for cutting. All the leading pattern companies now make designs for 24-inch fabrics and state on the pattern envelopes the quantity of this width goods required.

The colors of American Printing Company Fabrics are absolutely fast. The blues are dyed with pure indigo, the reds and blacks with fast colors.

American Printing Company Fabrics repay careful making, as they can be washed over and over again.

American Printing Company Wash Fabrics

Among the most desirable new designs in American Printing Company Fabrics are the mercerized foulard styles, in light and dark Indigo shades, which reproduce exactly the patterns of the latest imported foulards, and the new Scotch gingham styles, which reproduce the exclusive Scotch ginghams. Dresses made from these foulard and gingham styles are shown in the group of costumes above.

American Printing Company Fabrics make pretty and durable school dresses for misses and children. The soft and brilliant colors are a continual delight to young wearers, while the small cost of the material allows more dresses than when more expensive goods are used.
